Morgantown Marriott Waterfront Place

Dr. Clarence C. & Maxine Davis Cottrill Endowed Lecture presents:

A crisis situation can—and likely will—occur at some time in your practice.

Many potential medical emergencies can be prevented. Gain a comprehensive command of the essential knowledge and skills needed to handle a life threatening medical crisis.

There are more medically compromised patients coming into our offices than ever before. Acquire "up to the minute" actions for dealing with a medical emergency while challenging preconceived or outdated ideas. Daniel Pompa, DDS, Oral and Maxillofacial Surgeon, ADA Consultant and Seminar Series Speaker, discusses the prevention, preparation, recognition and management of medical emergencies, delivered in an interactive, high energy, multimedia presentation frequently described by attendees as "highly informative," "engaging," and "exceptional." A step-by-step medical approach using basic physical diagnostic methods is reviewed, giving the attendee a clear understanding of these medical findings.
